CAPABILITY PROFILE

MEET THE LEADERS
IN NATURAL VENTILATION

PROJECT

**ALDI DISTRIBUTION
CENTRE**

Airocle™

WHO ARE WE?

THE LEADING GLOBAL NATURAL VENTILATION DESIGNERS

Airocle is part of the prestigious IVR Group – which has been operating in Australia and internationally since 1924 – we're at the top of our game.

We **design, manufacture, install & service** bespoke natural ventilation systems, using highly-engineered, Australian-made products.

NATURAL, SUSTAINABLE AND GREEN DESIGN SOLUTION

- ZERO electricity running costs, contributing to Green Star rating
- Increased longevity & minimal servicing
- Bespoke design & turnkey solutions

NATIONAL CONSTRUCTION CODE (NCC COMPLIANCE)

Our product assists with compliance to the National Construction Code (NCC) by providing ventilation, improving indoor air quality and acting as an effective smoke hazard management system.

WHO ARE OUR CUSTOMERS?

Airocle provide sophisticated solutions for some of the biggest companies in Australia. Industries we work across include manufacturing, food service, chemical service, warehousing and more.

To name a few, Bluescope, DHL, JHG, Rio Tinto, ALDI, VISY, etc.

WHAT WE CAN DO FOR YOU

WE OFFER THE COMPLETE PACKAGE

360° AIRFLOW ANALYSIS

Airocle can perform a 360° Airflow Analysis to design and optimise your ventilation systems for clean, safe air.

A SOPHISTICATED DESIGN CONSULTANCY

- Consulting advice on natural ventilation and passive smoke hazard management design for end users, builders, architects and engineers
- Dedicated engineering specification support for complex or demanding projects including workshop design drawings

MANUFACTURING & SUPPLY

- Roof and Wall ventilation
- Natural smoke hazard management products and systems
- Pressure relief, deflagration and overpressure ventilators
- Acoustically treated passive ventilation
- Fixed and operable louvres

INSTALLATION & SERVICING

- Trade qualified roofing, plumbing and electrical staff
- Extensive experience in mining, infrastructure, education and defence facilities
